🎯 SUMMARY

I am an undergraduate student in Artificial Intelligence. Analytical and detail-oriented AI undergraduate with hands-on experience in data analysis, visualization, and AI tools. Proficient in Python, Power BI, and Excel. Also, bring 5+ years of WordPress development experience with a proven track record in delivering responsive and optimized websites. Seeking a data analyst role where I can apply my analytical skills and technical knowledge.

🧠 EXPERTISE

- 📊 **Data Analysis & Visualization:** Excel (Pivot Tables, VLOOKUP, Data Cleaning), Power BI, Pandas, NumPy, Matplotlib, Seaborn
- 💻 **Programming:** Python, SQL, C++
- ⚙️ **AI Tools:** LangChain, LLMs, Crew AI, LangGraph, Uvicorn, Chainlit
- 🔧 **Tools:** Google Colab, Jupyter Notebook, VS Code, PyCharm, GitHub, Docker

🎓 EDUCATION

Islamia College University Peshawar

BS in Artificial Intelligence

Nov 2023 – Present

Presidential Initiative for Artificial Intelligence & Computing (PIAIC)

Certified Cloud Native Applied Generative AI Engineer

Jul 2024 – Dec 2025

Ambassador

Dec 2024 – Present

| | |
|--|---------------------------|
| Career Connect Pakistan Campus Ambassador | Mar 2025 – Present |
| Human Development & Peace Organization - HDPO Ambassador | Mar 2025 – Present |

PROJECTS

Power BI Projects

Care Hospital – Patient Flow Dashboard

Tools: Power BI, Excel, DAX

Designed an interactive dashboard to monitor patient journeys from admission to discharge. Integrated custom visuals like funnels for diagnoses and donut charts for feedback. Used DAX for KPIs, MTD/YTD stats, and patient-level drill-through analysis, making real-time decision-making effortless.

Babar Azam Career Stats

Tools: Power BI, Excel, DAX

Created a visually striking dashboard showcasing Babar Azam’s performance across formats (ODI, Test, T20) and years. Combined dark-themed aesthetics with KPIs, boundary analytics, and form-based filters to give fans and analysts a detailed performance overview.

Mobile Sales Performance Dashboard

Tools: Power BI, Excel, DAX

Built a full-scale sales analytics solution with calendar filters, time intelligence (MTD/QTD/YTD/SPLY), and dynamic KPI cards. Enabled business users to compare trends, forecast targets, and evaluate performance at a glance.

AI & Python Projects

AI Chatbot with Live Search

Developed a multi-agent AI assistant using LangChain + Chainlit with real-time streaming, Google search integration, and memory retention – perfect for intelligent query resolution.

Real-Time Digital Clock

Built a sleek, GUI-based digital clock using Python’s tkinter, updating time dynamically with minimal resource usage.

Web Development Projects

- Pharma Website – WooCommerce-powered, with secure prescription forms and doctor appointment booking.
- Multivendor E-Commerce – Enabled seller dashboards and integrated payment systems, increasing customer satisfaction by 30%.
- WordPress Blog – SEO-optimized structure that boosted organic traffic by 40%.
- Responsive Login Page – Built using HTML, CSS, and JS with full input validation.
- Profile Card & CV – Created interactive, stylish profile cards and CV websites with responsive design and animations.
- Contact Form – Accessible, fully validated web form that blends clean UI with functionality.

CERTIFICATIONS

- **Digital Empowerment Network:** Certificate of Mentorship for WordPress Interns
- **Google:** Crash Course on Python, Soft Skills Program (PAFLA)
- **University of Pennsylvania:** Python Programming
- **IBM:** Introduction to AI, Basics of Generative AI
- **Open Weaver:** Learn WordPress Without Coding
- **BitDegree:** Certificate of Web Development
- **Cyberseez:** Web Development Certification
- **Dosti:** Volunteer at 4th Dosti Peshawar Literature Festival

VOLUNTEERING

UNICEF & WHO

- Emergency Preparedness Coordinator
- Organized and led emergency preparedness programs, facilitating rapid response during crises.
